

# ACCESSIBILITY

Accessibility is not only for people with disabilities, it's about making sure everyone can study and participate in our society.

## Physical Accessibility

Creating a good learning environment for all people to be able to navigate, enter, and use spaces independently and safely

## Digital Accessibility

Ensuring that technology and digital content can be used by everyone, regardless of their abilities

## Cognitive & Sensory Accessibility

Creating content that is versatile enough to be comprehended and interacted with by a broad spectrum of individuals
