

## News archive 2015

### 23<sup>rd</sup> of Nov 2015

Anssi Laukkarinen from the Building Physics research group has received a four-year scholarship for doctoral studies. Congratulations!

---

### 13<sup>th</sup> of Nov 2015

Paavo V. Suominen Trust granted Professor Juha Vinha an award for merit for his commendable achievements in building physics research. The trust wants to promote technological research and education. The award was granted at the personnel gala for the 50th anniversary of TUT at Hotel Rosendahl on 13.11.2015.

---

### 5<sup>th</sup> of Nov 2015

Oskari Vilamo Foundation has awarded this year's highest quality Master's thesis award to Petteri Huttunen from TUT's Building physics research group for his Master's thesis [Building Physical Performance of a Steel-framed Large-panel Façade with Ventilation](#). The awards were granted at the annual celebration of the foundation at Finlandia Hall on 5.11.2015.

The research group has been very successful in the past couple of years when it comes to the Oskari Vilamo Foundation's awards, since last year the award was given to Elina Manelius and in the year 2013 to Mikael Mäkitalo.

---

### 22<sup>nd</sup> of Oct 2015

Thank you everyone who took part in the three-day Finnish Building Physics Symposium 2015! Photos from the Symposium can be seen [here](#).

---

## 21<sup>st</sup> of Oct 2015

The Award for Moisture-safe Building Construction was given to building inspection authorities of both Oulu and Helsinki. Congratulations!

---

## 25<sup>th</sup> of Sep 2015

The [program](#) of the Finnish Building Physics Symposium has been published.

---

## 28<sup>th</sup> of July 2015

International Keynote-speakers have been confirmed: Mark Bomberg and Anker Nielsen. See their biographies [here](#).

---

## 1<sup>st</sup> of June 2015

Thanks to [COMBI](#)-project the research group has been able to employ several new [Research Assistants](#), all of whom are now beginning to write their Master's theses.

---

## 22<sup>nd</sup> of May 2015

Finnish Building Physics Symposium 2015 received 105 proposals for paper presentations which is more than ever before. Thank you to all who sent in a proposal! The announcements of the acceptance of proposals will be sent on the 10th of June at the latest.

---

## 2<sup>nd</sup> of Apr 2015

Since the University turning 50 this year, the Faculty of Built Environment has gotten new [presentation slides](#). Achievements of Building physics research were highlighted.

## 23<sup>rd</sup> of Mar 2015

New project COMBI received funding of 2.4 million euros! This project focuses on finding the impacts and challenges related to the energy efficiency improvements in municipal service buildings and how to overcome the issues. Involved in this project are 7 research groups from Tampere University of Technology, Aalto University and Tampere University of Applied Sciences.

## 18<sup>th</sup> of Feb 2015

[Call for Papers](#) (in Finnish) has been issued for the Finnish Building Physics Symposium 2015. The link for leaving presentation proposals will be opened on RIL's webpage. We wish to receive a diverse group of proposals from different parties and about different subjects.

---

## 2<sup>nd</sup> of Feb 2015

[Photos](#) from previous Finnish Building Physics Symposiums have been added to flickr.

---

## 19<sup>th</sup> of Jan 2015

The Building physics group visits German BAU 2015 Trade Fair on week 4 as spectators.
