

WHO Collaborating Centre Focus and Terms of Reference

Lauri Kokkinen, PhD, Research Director

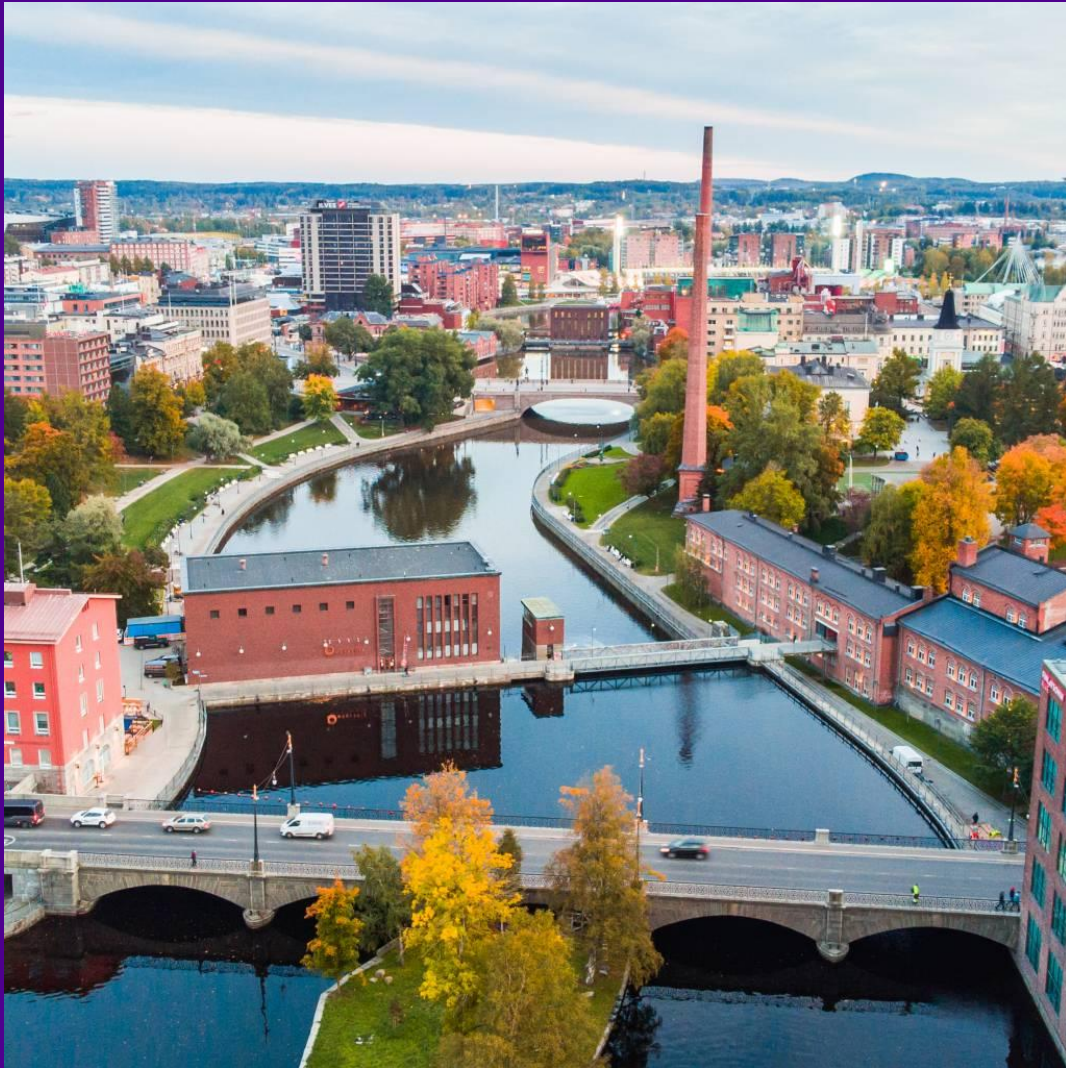

Collaborating Centre on Health in All Policies and the Social Determinants of Health

1. Strengthen the knowledge base on government strategies, like health in all policies, for advancing health equity

2. Strengthen the knowledge base on social protection and health equity and how to evaluate social protection policies impacts

3. Provide input on the monitoring of the social determinants of health and the monitoring of health equity impacts of different sectors and in different levels of governance

4. Increase training and capacity building on the social determinants of health and health equity
